

Senate Passes Navy Money Bill Carrying \$495,000,000 Watson Scores G.O.P. Policy

All Efforts of Economy Advocates Are Defeated When Measure Is Finally Passed.
PASSAGE FOLLOWS THREE WEEKS' DEBATE

Navy Personnel of 120,000 Is Reaffirmed—People Are Too Heavily Taxed, Georgian's Claim.

BY JOHN GLEISSNER, United News Staff Correspondent.
Washington, June 1.—The senate after more than three weeks of debate, has passed the naval appropriation bill, providing for the expenditure of \$495,000,000 during the 12 months beginning July 1.
As finally adopted last Wednesday by a vote of 54 to 17, the bill was in substantially the same form as when it was reported out by the committee on naval affairs. All efforts of economy advocates to reduce the size of the appropriation were defeated, except that the provision for spending \$1,500,000 to begin construction of a naval base at Alameda, Cal., was stricken out.
The bill carries the amendment of Senator Borah, authorizing and requesting the president to request with representatives of Great Britain and Japan the possibility of limiting naval constructions over a period of five years.
It provides for navy personnel of 120,000 men, 20,000 more than the house had authorized.
It allows \$90,000,000 for the construction of naval vessels in continuation of the 1916 building program; increases the amount for action and provides for construction of two aircraft carriers.
The bill also authorizes the continuation of work on the dry dock at Charleston, S. C. The senate restored this provision, after having previously voted to suspend work until 1924, as the result of a vigorous fight carried on by southern democrats. A similar attempt, expected with regard to the Alameda base which had also provoked much argument, did not materialize.
The bill now goes to conference with the house, where differences between the two chambers will be adjusted. The senate increases the amount the house appropriated by \$100,000,000, and the lower chamber is expected to resist these increases, \$15,000,000 of which is for the 20,000 additional personnel. The house also has ideas of its own about disarmament, and an attempt will be made to broaden the appropriation bill to include all nations, and land forces as well as sea. Senators are opposed to any alterations in the amendment.
House Can Delay Bill.
The house, in opposing senate increases, could tie up the bill for more than 30 days. This would mean the navy would find itself without funds at the beginning of the fiscal year, and great confusion would result.
In the last hours of debate the senate again refused to support a renewed attempt at economy advocates to cut the personnel to 100,000. It voted down, without a record vote, three amendments of Senator King, of Utah—these would suspend work on six dreadnaughts and five cruisers, and reduced the appropriation for fuel.
WATSON ASSAILS G. O. P. POLICY.
BY JAMES A. HOLLOWAY, Constitution Bureau, Raleigh Hotel.
Washington, June 1.—(By Constitution Leased Wire.)—Senator Thomas E. Watson delivered an address in the senate this afternoon, in opposition to the naval appropriation bill. The junior senator from Georgia spoke for more than thirty minutes and attracted the attention of both republicans and democrats, many senators coming into the chamber from the cloak room to hear the Georgian assail the administration's policy of increasing naval expenditures during a time when the world demands disarmament.
Senator Watson took the position that the United States senate had already voiced approval of world disarmament.

BILL WOULD HAVE GOVERNORS FILL HOUSE VACANCIES

Washington, June 1.—A constitutional amendment authorizing governors to fill vacancies caused by the resignation or death of members of the house of representatives, was proposed in a resolution introduced today by Representative Appleby, republican, New Jersey. Such an amendment, he said, would obviate the necessity of holding special elections.

Fulton Planning To Put Convicts On Merit System

Reward for Good Behavior Will Be Payment of Dollar a Month.

Within the next month Fulton county commissioners will take action with reference to placing the convicts now working in the county on a merit system and paying each convict one dollar per month if he does not get more than five demerits during that period.

The proposed plan was made in the form of a recommendation by the public works committee, which is composed of Paul E. Bore, chairman of the commission, Dr. W. L. Gilbert, chairman of the public works committee, and Oscar Mills, who has served in the capacity of chairman of the board and of the public works committee.

The recommendation would have been adopted at the meeting of the three commissioners recommending it constitute a majority of the board, but the committee stated that they wanted the vote to be unanimous on this proposition as they considered it a great step forward in managing convicts.

At the request of Captain George Hope, the commission voted to hold the matter over for a few days until he has time to look into it. The recommendation follows:

The committee on public works recommends to the board the adoption of the Fulton county convict system, to be known as the merit system.

Five demerits in any one month shall constitute a demerit. If a convict is guilty of violating one of the rules to the extent that corporal punishment must be inflicted to maintain discipline, such individual or individuals shall be deprived from participating in the award for two months.

Failure to obey orders from the proper authorities in charge, or violating any of the rules of the prison, or one of the specific rules issued by the warden of Fulton county, shall constitute a demerit.

All sums accruing to a prisoner under the above system shall be paid upon completion of sentence of such prisoner, and officer of the prison to be received.

Golden Favored System.
Warden Charles Collier spoke in favor of the system, stating that there were twenty seven life term convicts and six whites. Some of these men he said, have never had a day's rest since they were sent to the Fulton county prison and several have been here as long as fifteen years.

Collier told the board that some of these life term convicts are a number of the long term prisoners have frequently begged for the money to go to the city and get a job, and that while he was in favor of abolishing the corporal punishment, he did not believe in paying any money out of the county treasury to the convicts.

Commissioner Charles Turner stated that he was not in favor of the recommendation, that he thought the money could be spent to better advantage elsewhere in the county, and that while he was in favor of abolishing the corporal punishment, he did not believe in paying any money out of the county treasury to the convicts.

Commissioner E. H. Gilbert stated that while the recommendation was small they thought the system would prove of benefit to the county and that if the board approved it, the dollar each month it would be a step forward.

Commissioner Hope stated that he wanted time to look into the subject, so it was agreed to defer action until later in the month.

\$400,000 PROVIDED FOR BUYING LAND AT CAMP BENNING

Washington, June 1.—(Special.) Provision of \$400,000 to pay for the acquisition of land at Camp Benning, Ga., is made in the second deficiency appropriation bill reported by the senate appropriations committee. It is estimated that fully this amount has been received in judgments by the federal court for land condemned to make Camp Benning, and the amount is made available out of money already appropriated for the quarter-master corps. Senator William J. Harris is a member of the subcommittee of the senate appropriations committee, and hopes to see the item finally passed in a few days. Secretary Weeks of the war department, has assured Senator Harris of the efforts of the department to expedite action.

President Receives Citizens Desiring To Raise Fund

Washington, June 1.—(United News.)—President Harding Wednesday received 40 men from various parts of the country who have volunteered their services as speakers in a new effort to raise funds for starving Chinese.

The Reverend William Hiram Faulkner, secretary of the New Era movement, introduced the delegation. He is indeed glad to have been of any service to this most appealing and worthy cause, said the president, and I mean to do everything in my power to help it.

No More Will Figures Play Prominent Part At Atlantic City

Atlantic City, June 1.—Male bathers, thinking of coming to Atlantic City this summer to see the sights on the beach, might better save money by remaining at home and pursuing those 50 cent collections of high-art studies suitable for the walls of bachelors' dens. Feminine charms will be under wraps in these regions.

"No socks or bare legs, no one piece suits or v-cut waists," says a sign which the officials are setting up to explain the beach regulations. "No improper conduct, no rough athletics, no ball-playing, no leap-frog."

Gentlemen's campfires are required to wear decorous costumes.

GERMANS ATTACK FRENCH GARRISON, SITUATION GRAVE

Number of Teutons Killed in Repulse of Assault on Soldiers of France in Beuthen.

POILUS REFUSE AID OFFERED BY POLES

Austrian Cabinet Resigns. Refuses to Accept Consequences of Proposal to Unite With Germany.

Oppeln, Upper Silesia, June 1.—(By the Associated Press.)—A grave situation is reported at Beuthen, where the Germans attacked the French garrison.

Sharp fighting followed, in which the Germans were repulsed. A number of the Poles, who also were fighting the Germans, made an effort to help the French. The French, however, refused this aid, and themselves fought the Poles.

In heavy fighting this afternoon in the Posenitz woods, near Groes-Strehlitz, the Poles were compelled to fall back before the onslaught of the Germans.

The Germans reported 21 casualties as 13 dead and 8 wounded. They were taken to Krappitz. The Poles left 130 dead on the field. Their wounded were removed.

The police forces were entrenched deep in the forest, and the Germans were in the open. Eventually the Germans entered the first, and desperate fighting ensued at close range with machine guns, rifles and revolvers.

Tonight the Poles had fallen back still further.

AUSTRIAN CABINET MEMBERS RESIGN.

Vienna, June 1.—The Austrian cabinet has resigned, refusing to accept the consequences of the proposed plebiscite as to whether Austria should join a union with Germany.

REDS TO MAKE CHANGES IN OFFICIALS.

Tokio, June 1.—(By the Associated Press.)—Dispatches from Vladivostok, which was captured recently by anti-bolshevik troops, are to the effect that the new provisional government set up in the city will make sweeping changes of officials, preliminary to taking over control of the maritime province.

A new assembly is to be convoked in July, according to the reports. The legislation to be considered by the assembly will include revival of the industries of the region, rehabilitation of the currency, improvement of communications, protection of the rights of farmers to work the land in accordance with the land apportionment system which prevailed before the revolution; prevention of anti-bolshevik farmers; division of the state administration into prefectural and village assemblies, and non-interference by the military in politics.

BOARD PROBING CATTS' ACTIVITIES SUBMITS REPORT

Tallahassee, Fla., June 1.—The joint legislative committee which for several weeks has been investigating the official acts of former Governor Catts, now under federal indictment for peonage and who has been indicted by the state for accepting a sum of money to influence his vote on the granting of a pardon, filed its report with the senate today.

Objection on the part of committee members to spreading the report in the senate journal prevented it from being made public. Final action in the senate will be taken tomorrow.

Cutting of Freight Rates Urged by Harding as Part Of Railway Readjustment

Park Commission Sends Challenge To Finance Board

Declares George Clayton Will Continue on the Cyclopedia Job.

Neither the finance committee, the park board, nor anybody else can fire George A. Clayton, supervisor of the building of the new cyclorama, until his contract has expired, according to the stand taken by the park board in its stance Wednesday afternoon.

The antagonism between the park board and Councilman Bob Gordon, dropped at the Monday afternoon session of the finance committee when it was voted to discontinue the services of Mr. Clayton June 30.

This action was mentioned Wednesday afternoon at the park board meeting, and discussion was prompted at the suggestion of Commissioner McGowan, who declared that Clayton couldn't be discharged until his contract was voided, "and that was all there was to it."

Commissioner W. W. Waltes went so far as to state:

"I'm in favor of keeping him in service until the whole \$100,000 for the cyclorama has been spent. Just to show the finance committee that they shouldn't have given that decision out to the newspapers until they had been given a chance to reach an amicable decision, I'm in favor of keeping him if he does nothing but sit down to rest all the time."

Commissioner Wallace said, with regard to this and with regard to the alleged misuse of some of the funds for the cyclorama:

"I've had nothing to do with it, and I'm not going to let it be investigated, and let the blame fall where it will. If I'm to blame, blame me; if nobody else is at fault, let's find out about it."

As a result of the question arising concerning the authority for expenditures on various materials for the cyclorama structure, a motion was passed ordering that the improvements committee of the park board investigate the matter fully, and report back to the full board on what expenditures had been made for the structure and by whom.

The sense of the meeting was that this was the way to arrive at a just conclusion on the whole matter.

The matter of providing lockers for the convenience of golfers at Piedmont park was referred to the improvements committee. After opinions had been advanced by several board members to the effect that such accommodations should be provided, as the golf course at Piedmont is becoming more and more popular and is really serving a great many Atlantans.

FORMER PUBLISHER NAMED BY HARDING FOR ALASKAN POST

Washington, June 1.—Scott C. Bone, a former Seattle publisher, and who was publicity manager for the republican campaign committee in the 1920 campaign, was nominated today by President Harding to be governor of Alaska.

SWORD IS BROKEN, TOIL MUST FOLLOW

Chancellor Wirth Tells Germans Development of Country's Resources Is Solution of Problems.

BY JOHN GRAUDENZ, United News Staff Correspondent.
Berlin, June 1.—Chancellor Wirth, in his reparation speech delivered to the reichstag Wednesday afternoon, has promulgated a series of economic rules and policies through which the German nation can hope to pay her debts and yet maintain her economic independence and stability.

It is a program of economy, of frugality, of the curbing of luxury, of increased production both by industry and agriculture, of government bonuses and rewards for hard work, and of "finer" for idleness or unsystematic cultivation.

"The sums to be paid in reparations," he declared, "can be extracted only by creating an economic balance. We must increase our production and reduce our expenses to the utmost, in our manufactures. We must limit all imports, especially luxuries, as far as is possible, through customs tax measures. To this end we should have sovereignty over our customs borders."

"Agriculture, as well as the manufacturing industries, is in need of machinery and implements, and this must be corrected.

"Our policy of taxation must aim at further agricultural production through granting premiums for the best results, but through heavy taxation of unsystematic cultivation. This will improve our nutrition and render us independent of the importation of foodstuffs. And also will increase the consumption of our inland markets for industrial products—more than would the greatest efforts to regain our world markets.

"Germany must become one great agricultural and industrial state, one assisting the other. We must

OUTLINES IDEALS FOR CITY SCHOOLS

Professor W. A. Sutton Condemns Stinginess of People in Opposing 'Educational Evangelism.'

Outlining his ideals of the Atlanta public school system, Prof. W. A. Sutton, recently elected head of the schools, declared before 100 social workers Wednesday that he favored preparation for those who come to the schools, carrying the schools to the homes, and that he had done their work and they have done it well," he said.

The second phase is carrying the schools to those not yet reached. He said he had been warned not to enter upon a campaign to get all the boys in high schools who ought to be there on the ground that Atlanta does not have the school facilities to accommodate them. He condemned this "lack of vision" and condemned the stinginess of the people in opposing "educational evangelism."

Intends to Know Why? He suggested a plan which he intends to present to the teaching force. Under it he would assign to each of the 1,200 school teachers in the Atlanta system a district composed of a group of blocks, expecting them to visit, study and understand the needs of the children and the adults in their districts with reference to education.

"We lost 174 boys in Tech High school this year. That is 14 per cent of the total enrollment."

BRIDGE REPAIRS CONGEST TRAFFIC

Street Cars and Automobiles Creep Forward Through Central Streets at Snail's Pace as Result.

Precipitating one of the worst traffic jams ever experienced by the city, contractors began the task Wednesday morning of making extensive repairs on the Forsyth street bridge, at which time the bridge was closed to all vehicles. Forsyth street, between Alabama and Marietta, will remain closed for at least two weeks, with a probability that every downtown street, because of the completion of the work.

The effect of the closing of that section of Forsyth, which is second only to the Peachtree-Whitehall thoroughfare in the amount of traffic handled, was felt on practically every downtown street. Forsyth street has been used extensively by motorists who desire to avoid the congestion of the shopping district on their way across town, and all these thousands of drivers of vehicles found it necessary Wednesday morning to stop at the closed points, turn around amid great confusion, and extricate themselves from the jam.

with the authorized prosecution and punishment under section enacting lesser and specific penalties for failing to pay a tax by imposing a tax double the amount imposed by law.

Beer Bill Agreed On.
The Volstead act, designed to prevent the use of medical beer, was agreed upon today by the house judiciary committee which will report it to the house, probably tomorrow, with a request for its immediate passage.

Prohibition leaders declared there were votes enough to put it through before the bureau of internal revenue could make effective regulations by which beer could be prescribed for the ailing under a ruling of former Attorney-General Palmer.

Although the measure as a whole would make the prohibition enforcement act more drastic, representatives of the drug and flavoring extract trades won their fight against a section requiring the sealing of denaturing of alcohol, prior to its withdrawal from warehouses and distilleries for manufacturing purposes. These and other trades declared such restrictions would work a hardship on legitimate industries whose products were not for drinking.

Introduces Redraft.
Chairman Volstead, by direction of the committee, introduced late today a redraft of his bill, slightly modified in some particulars. The section prohibiting importation and manufacture of liquor until the stocks now held under government supervision have been materially reduced or exhausted was retained.

The redrafted measure, while placing certain restrictions around the use of wines in medicines, did not include the original provision which would have outlawed wine as a medicine along with beer. It provided for the withdrawal of alcohol from medicinal purposes, and gives the commissioner authority to find that any preparation is being used as a beverage, to require a change of formula so that it would be rendered actually unfit for drinking.

PEACHTREE—WALTON—BROAD

ESSAY PRIZE

Twenty volume set of "The Book of Knowledge," donated by the Grolier society as a state prize in the good roads essay contest.

**PRIZES ANNOUNCED
IN HIGHWAY ESSAY**

Continued from First Page.

To these valuable prizes it is expected others will be added later, giving rewards for still other fortunate contestants in the state.

In response to many inquiries received by The Constitution for further rules in regard to the contest it is announced that there are no regulations except those set forth in the first announcement. The essays must not be more than 500 words in length. The subject is "Good Roads—Highway Transport." Essays must be turned in to the Constitution by June 15. And they must be written by high school students.

Absence of strict regulations for the development of the subject gives each contestant the opportunity to write his essay in the fashion which most appeals to him, affording a latitude in treatment which, it is expected, will bring about better results than would be the case were the writer to be hedged about by limiting restrictions. Essays will be graded on a basis of knowledge of highway transport, good roads and style. The compilation of such data as may be necessary for the essay is left to the initiative of a contestant. Public libraries, current magazines and the literature published by good roads associations and automobile manufacturers should prove a rich field for interesting fact. There are hundreds of ways in which the subject may be treated. That, too, is left to the initiative of the student writer.

**AMERICAN BAR HEAD
TO GO UNDER KNIFE**

not waste our best powers in internal differences. We must immediately overcome the spirit of grafters. Discouragement and despair must be replaced by the conviction that this people, with the historic past of economic capacity they enjoy, is able to overcome the troubles of the present.

"The sword has been broken. We must work." The financial points of the chancellor's speech were concerned with the proposal for the taxation of stock companies, and also of speculation, reorganization of the tax on private fortunes which is estimated to return several billions of francs, and the creation of government monopolies of certain products.

The proposed 26 per cent export tax is not considered economically sound, and an adjustment of this point is planned by the chancellor.

**BRIDGE REPAIRS
CONGEST TRAFFIC**

Continued from First Page.

by moving forward foot by foot.

Cars Change Route.
Adding to the acuteness of the situation, the three trolley lines using the bridge changed their routes temporarily to the Broad street bridge. At noon and in the late afternoon Wednesday a solid string of cars on both tracks was feeling its way across the Broad street bridge almost by inches. Other vehicles had as much difficulty in getting through town.

Following are the temporary routings of the street cars affected:

Ponce de Leon cars will run Peachtree and Broad street to Mitchell, in both directions.

Lucile street and Woodward avenue cars will run Walton street to Broad, Broad to Hunter, going south, and their regular route going north.

Orme and Magnolia street cars will run Forsyth to Walton to Broad to Alabama to Forsyth, going south. Northbound cars of this line will run Mitchell to Broad to Marietta to Forsyth and their regular route.

\$12,000 Expenditure.
The repair work on the bridge will involve an expenditure of approximately \$12,000. The principal task will be to replace floor beams Nos. 4 and 5, which have become weakened. The decay of the big steel girders was caused principally by the exhaust of smoke and cinders from the many locomotives which have passed under the bridge for years.

To make the repairs it will be necessary to remove three entire spans of the bridge, including the sidewalk. New materials for the bridge are ready, and the big beams, weighing 5,000 pounds each, will be hoisted into place from the railroad yards below as soon as the old ones are removed. Any steel parts of the bridge found in good condition will be used again.

The work is being done by the F. E. Gollan company. Officials of that company stated Wednesday that they fully realized the serious effect of the present situation on the city's traffic, and that all efforts will be made to complete the work as early as possible.

**OUTLINES IDEALS
FOR CITY SCHOOLS**

Continued from First Page.

cept of which was lost because of the lack of co-operation between home, teacher and school. Nearly every case of suspension this year was caused by disagreements between father and mother. We need somebody to direct their work in each school. The great task of the Atlanta school system is to have a visiting teacher or social service worker for every eight class rooms in the city. These visiting teachers, with the aid of the teachers assigned to districts, would be

in a position to handle cases of discipline, truancy, retardation, and failure, because they would know conditions. They would save from wasted life and failure, thousands of boys and girls for education and success.

Professor Sutton declared that he hoped to see the day come when no teacher would have more than 15 to 25 children. "That is ideal, I know," he added, "but we must have our ideals and work toward them."

Must Carry Education.

His third point was that the schools must be carried to those who cannot come to them. He believes that the school system should carry education to the employed in shops, manufacturing plants, and office buildings, both young people and old. He believes that a school should be opened in a downtown office building, to which office boys might go at different hours in the day. If the people in Atlanta were properly educated, they would agree that the city has no right to give education only to those who can come to school.

Professor Sutton was given an enthusiastic hearing by more than 100 social workers from practically every branch of welfare work in the city. He bespoke their co-operation and assistance in his new work and was assured of their interest and aid.

The attendance contest of the Social Workers club which has been going on during the past three months was closed Wednesday, and was won by Miss Mary Dickinson's team, with that of Mr. Joseph C. Logan second. The two losing teams, headed by Miss Irma Finley and Miss Edith Thomson, will arrange a "tambores" for the two winning teams some time this month.

disarmament, by passing the Borah "naval holiday amendment," and he argued that passage of the huge appropriation demanded by the navy department, at this time, would be considered, by foreign nations, an effort on the part of our government to deceive other governments of the world.

Too Heavily Taxed.

Senator Watson declared that the people were already taxed beyond their paying capacity; that the increase in the army and navy added enormous burdens to an already depressed people; and that the Harding administration instead of making the people's burdens lighter were making them heavier, day after day.

His tribute to the American navy was eloquent and touching. He declared that the navy had never suffered defeat, and expressed his belief that no nation in the world could successfully attack the United States, on land or sea. He ventured a hope that the government of the United States would set the world an example for universal peace. Senator Watson took the position

Dean of Pharmacy School.

Thomasville, Ga., June 1.—(Special.)—The friends here and in the county of H. Dewey Crowe, son of Dr. W. H. Crowe, of Coolidge, are greatly interested in the fact of his being made dean of the Atlanta School of Pharmacy.

He graduated from this school two years ago, when only 20 years of age, making the highest record of the school in many years. After graduation he entered the medical school of Emory college in Atlanta and had made "good there, when he was selected as dean of the school of pharmacy.

NEW YORKER ENDS LIFE IN ATLANTA

Following the identification of the young suicide, whose body was found at 84 West Harris street, Wednesday morning as B. F. Southerlander, of New York, local officials were endeavoring Wednesday night to learn something about his family connections from the New York authorities.

The body was identified at a coroner's inquest Wednesday afternoon by a clerk of the Oliver hotel, who testified that the young man had registered there on March 24, and remained for one week. He moved from there to West Harris street. A verdict of suicide, by asphyxiation was returned by the coroner's jury.

Southerlander rented a room from Mrs. G. G. Miller. She testified that the young man, who was a cripple,

came to his room about 4 o'clock Tuesday afternoon and went to bed. When she knocked on his door Wednesday morning there was no response, and entering, she found his body, with a tube leading to his mouth from a gas jet.

In an apparent effort to conceal his identity, he had removed all initials and laundry marks from his clothes and hats. He had asked his landlady to call him Sanford, and that was the only name under which she knew him.

No motive for his act has been found. He left no note of explanation, as far as the police can ascertain.

BLUE MOLD DISEASE HASN'T DESTROYED SOUTHERN TOBACCO

BY JAMES A. HOLLOMAN, Constitution Bureau.

Washington, June 1.—(By Constitution Bureau Wire.)—Statements reported to have been circulated in the press and in the tobacco trade to the effect that the Florida-Georgia shade tobacco industry has been destroyed by the tobacco blue mold disease, which recently appeared in

that region, are pronounced by the department of agriculture, in a statement issued today, to be entirely without foundation.

The disease which, so far as known, was first observed on commercial plantings in this country early this season in the Gadsden-DeKalb district and aroused much apprehension among the growers there at that time, has been under investigation by specialists of the bureau of plant industry since late in March of the present year. The infection in the seed beds was distinctly threatening and the same condition existed in a considerable number of shade fields for several weeks.

Since about the middle of April growing conditions in the region have been favorable for the development of the crop, and adverse to the spread of the disease, so that its attacks have been substantially confined to the lower or sand leaves and are estimated at not to exceed 5 per cent of the crop in the infected areas.

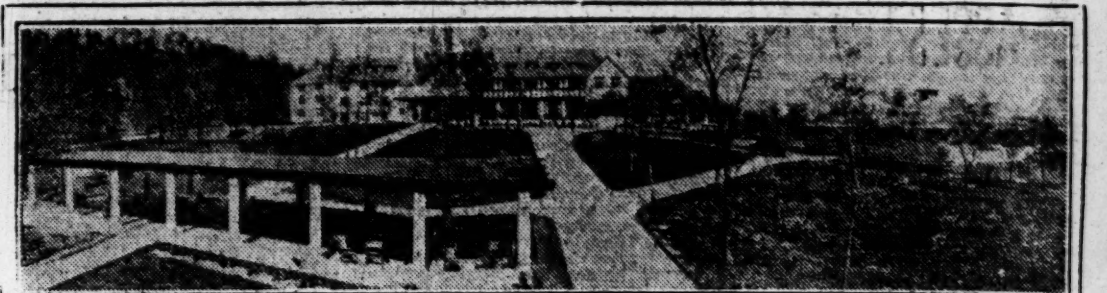

Advices to May 30 indicate the crop is making rapid, luxuriant growth, showing little insect injury, with little probability of spread of blue mold later in the season. The department is informed that state reports have been made to the effect that this disease will spread on tobacco in storage and that even leaves which may mature without visible infection would be unsuit-

able for use. There is no foundation for such statements as the disease does not spread on harvested and cured tobacco.

Clean leaves are in all respects normal and suitable for wrapper use. Reports that the blue mold

disease has appeared in Connecticut, North Carolina, or other districts, are not true, so far as the department has information, nor has the disease appeared in the Madison or Dade City districts of Florida, nor in southern Alabama.

"Umbrellas Recovered," says an advertisement. We wish somebody would recover ours. It's been missing a long time. Hand painted silk umbrellas are now the mode. But not among fire engines.

**WHITTLE SPRINGS HOTEL AND PLEASURE RESORT**

Located near Knoxville, Tenn. For pleasure, recreation and health, no more ideal place can be found for both old and young.

FLORIDA SENATE PASSES FILM ACT

Tallahassee, Fla., June 1.—(Special.)—Florida, first state in the union to legalize action of the national board of review of motion pictures on pictures, passed unanimously a bill in the senate this afternoon which provides that it shall be unlawful to exhibit films which have not been passed by the national board or the New York state board, and also providing that the governor appoint three citizens of Florida to the advisory committee of the national board.

The bill passed the house 50 to 8, on Saturday, last. Passage of the bill comes as the culmination of a hotly contested fight between federated clubs and exhibitors. The present bill, which becomes a law with the signature of the governor, was compromised and agreed to by both sides.

The act does not apply to films used by schools, churches, chambers of commerce or films used for strictly scientific and educational purposes. The national board of review was organized by the People's Institute of New York in 1909, when the producers of the country agreed to abide by its recommendations as to elimination and reconstruction of films submitted for their review.

Beginning with only a few members and poor co-operation from the motion picture industry, the board has grown to a review committee

of two hundred members; to count among its directors the foremost educators and social workers of the country, and reviews more than 99 per cent of the pictures produced in this country.

Women Are Interested.

The Federation of Women's Clubs of the state of Florida has been very deeply interested in censoring matters, and was represented before the legislature by Mrs. C. L. Johnson, of Leesburg, state chairman of the civic department, and Mrs. J. G. Kellum, state chairman of legislation. These ladies, becoming convinced that state censorship would not gain the desired ends, and would injure the industry, consented to the withdrawal of their original bill and supported the compromise.

Motion picture exhibitors were represented by John T. Alsop, Jr., of Jacksonville, and Mr. Duffin of Tallahassee, all of whom agreed that the bill passed will place Florida far in the lead of other states in the union in securing better pictures, will secure a selection of public opinion rather than from that of politically appointed censors, and will aid rather than hurt industry.

\$12,500 IS GIVEN FOR NEW LIBRARY

A total of \$12,500 was appropriated by the Fulton county commission at the regular monthly meeting Wednesday afternoon to be used towards the purchase of a lot and the erection of a public library at the corner of Bellwood and Shiloh avenues.

A delegation of citizens from that neighborhood appeared before the commission and asked for \$10,000 towards the building and \$2,500 towards the purchase of the lot. The request was granted.

A delegation appeared before the board to ask that Barnett street be paved from Blue Ridge avenue to Virginia avenue. The plea was referred to the public works committee with power to act.

President S. S. Arkwright, president of the Georgia Railway and Power company, told the board that he thought there was a misunderstanding about the work of repairing Peachtree road between the car tracks. He stated that the franchise granted by the county stated that the road between the tracks was to be kept in good condition, not state that it had to be paved.

The commissioners stated that the company had been notified that the present rubble stones between the tracks would have to be removed and that there was no further action necessary at this time. The county has consented to furnish the oil and asphalt and to do the work of penetrating the roads between the tracks.

Commissioner Turner, chairman of the police committee, claimed that the county was not giving service on some of the county police call boxes.

NEGRO TRIO HELD IN DEATH OF MAN HACKED TO PIECES

Indianapolis, Miss., June 1.—The body of I. C. Gross, leading merchant and acting postmaster of Holly Ridge, this county, was found almost hacked to pieces in his store today. Three negroes, one a woman, have been arrested charged with the crime and according to Sheriff Cox, have confessed their complicity.

Townpeople made the discovery when the store failed to open at its usual time this morning. Gross was a bachelor and slept on the premises. A bloody axe was found in his room. Robbery is believed to have been the motive. Sheriff Cox states that the woman returned \$70, which she said was her part of the loot. The trio under arrest are alleged to have implicated a man they say was the ring leader.

SENATE GETS GEORGIA WOMEN'S RESOLUTION

Washington, June 1.—(By Constitution Leased Wire.)—The resolution of the Georgia League of Women Voters favoring disarmament by agreement with other nations, was presented to the senate today by Senator Harris of Georgia. The resolution was adopted at the recent state convention of the league in Augusta, and strongly urged a reduction in appropriations for armaments to be brought about by agreement between the leading countries.

Letters urging reductions in freight rates on fertilizers were also presented the senate by Senator Harris.

PINNED UNDER CAR, MAN IS DROWNED IN AUCILLA CREEK

Thomasville, Ga., June 1.—(Special.)—E. Marvin Pamborough, one of Boston's most prominent citizens, met death this morning when his automobile was overturned in a pile of sand just outside the town limits, and was thrown into Aucilla creek. A negro in a wagon just behind Mr. Pamborough saw the accident and running to his assistance, tried to lift the car but could not hold it long enough for Pamborough to extricate himself.

He then ran for assistance a few yards up the road but upon returning found Mr. Pamborough had been drowned. Mr. Pamborough was about forty-six years of age, well known and popular throughout Thomas county. He was of unusual proportions, being six feet six inches tall.

PRESBYTERIAN SCHOOL GIRLS GET DIPLOMAS

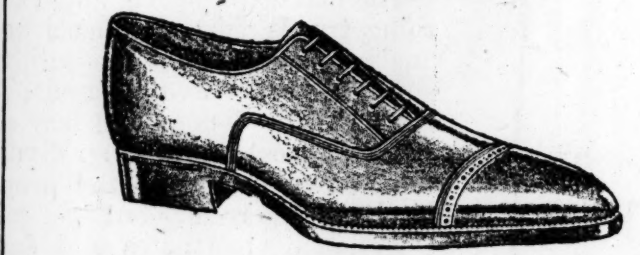

Commencement exercises of the North Avenue Presbyterian school, closed Tuesday evening, when Dr. Marion McH. Hull, chairman of the board of trustees, presented the diplomas. The Right Rev. H. J. McKell, bishop of the Atlanta diocese of the Episcopal church, delivered the address, and Dr. Richard Orme Plinn, the pastor of North Avenue Presbyterian church, pronounced the invocation.

The graduates were: Miss Mary Lee Altman, Miss Mary Brown, Miss Martha Driver, Miss Ruth Fleming, Miss Charlotte Hancock, Miss Catherine House, Miss Elizabeth Meredith, Miss Jane Moffett, Miss Anne McGaugh, Miss Mary Newton, Miss Abby Nichols, Miss Evelyn Smiley and Miss Winston Tuller.

Mrs. Yopp Hostess To Miss Lambdin

Mrs. John W. Yopp was hostess at a bridge-tennis party at her home on Peachtree circle, in compliance to her sister, Miss Jeanne Lambdin, who has arrived to spend the summer in Atlanta with Mrs. Yopp and her mother, Mrs. W. Lambdin.

The apartments where the interesting game was played were decorated with quantities of sweet peas and sunflowers.

Miss Lambdin was presented with a bottle of perfume. The score prize was a card table cover with applied flowers.

Mrs. Yopp was beautifully gowned in pink voile.

The honor guest wore an afternoon gown of green organza and lace.

Mrs. Yopp's guests included twelve close friends.

Piano Recital

The piano recital to be given at the home of Captain George M. Hope, on Peachtree road, Friday afternoon, will include six little pupils of Mrs. Armand Carroll. Those taking part will be Misses Kate Hope, Lilla Hutchinson, Elizabeth Olsky, Ruth Brooks, Grace Jackson and Robert Harbort.

Miss Robert Harbort, one of the talented dancing pupils of Mrs. William Clark Spiker, will feature an other interesting number of the program, that of interpretative dances. The program will begin at 4:30.

Study Club Contests

Thursday afternoon at 4 o'clock at the Ponce de Leon Baptist church examinations for the contents of the Juvenile Music Study club will be held.

For the closing meeting Miss Evelyn Jackson has arranged a lawn party at her home, 112 West Fifth street Saturday afternoon at 5 o'clock, at which time the prizes for the contests will be awarded.

INGROWN TOE NAIL
TURNS OUT ITSELF

A noted authority says that a few drops of "Outgro" upon the skin surrounding the ingrown nail relieves inflammation and pain and so softens the tissue sensitive skin underneath the toe nail, that it can penetrate the flesh, and the nail turns naturally outward almost overnight.

"Outgro" is a harmless, antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions—(adv.)

Linder, Mr. and Mrs. Robert Foreman, Jr., Mr. and Mrs. R. C. M

PROTEST IS FILED ON GAS REDUCTION

Asserting that the state railroad commission, in reducing the gas rate in Atlanta from \$1.50 to \$1.15 a thousand cubic feet, acted without notice and without granting a hearing, the Georgia Railway and Power company, through President Arkwright, filed formal protest with the commission Wednesday against the commission's action in the case.

It was announced that the company wanted the protest to become a part of the record in the case so that it would not be placed in a position of acquiescence in the order. In its statement, the company asserts that the commission violated its own rules in issuing its order without giving 30 days' notice, and quotes the rules of the commission to substantiate the point.

The company declares in the statement of President Arkwright that it suffered unduly in the last two years because of the enforcement of the commission's rule requiring thirty days' notice, as provided in its regulations.

Protest on Rates. The protest is directed against the rates fixed in the commission's recent order; against its recent order deriding and fixing of rates; against its valuation of the company's property; and against the fixing thereof and against its deductions from operating expenses as submitted by the company.

President C. M. Candler, chairman of the commission, said he had no statement to make concerning the protest of the company. He said it was a formal procedure, and would follow the usual channels.

Following is the statement of the company issued by President Arkwright:

Arkwright's Protest. Because the railroad acted without notice, without a hearing and without an opportunity to be heard, the Georgia Railway and Power company has lodged with the commission a formal protest against its recent order deriding and fixing of rates as fixed, against its valuation of the company's property, and against its deductions from operating expenses as submitted by the company.

The protest is made at this time so that it may be filed as a part of the record and in order that the company may be put in the position of seeming to acquiesce in the commission's findings and recent procedure.

In its protest, the company invokes respect attention to the commission's own rule 12, which reads:

"Both in cases of complaints and when the commission initiates action, notice shall be given to the persons or corporations interested in, or affected thereby, ten days before the hearing, except in cases where the fixing of rates, when thirty days' notice shall be given; and shall give to such persons or companies an opportunity to be heard."

In view of the above rule, the company points out that the commission required the company to file with it a statement of earnings and expenses for the month of April, 1921. This statement was filed with the commission on May 20, 1921, on this one month's statement, showing:

Bryan-Hatton Business College

Bryan-Hatton, Co-presidents.
Largest Business College in Georgia. Life Membership \$50.

Enter any day. Summer session day and night. Grammar and high school pupils may begin courses. We prepare teachers for commercial work in high schools and colleges and place them in positions at \$1,500 to \$2,500. Special 20-day offer—Full typewriting and Dictaphone course, \$20. PROTESTING GAMES TO SHRINE TRIP

The camels of Ysaar temple are being groomed for the big pilgrimage to Des Moines, and some sleep are practicing going without sleep a few nights in succession, while others are trying to sleep with the phonograph running, the baby crying and the family dog howling—all to get into shape for the trials and tribulations that may beset them as members of the big caravan that will leave the Union station Sunday morning, June 12, at 11 o'clock.

All arrangements for the trip have been made by illustrious Potentate Henry C. Heins and Noble Byron Souders, chairman of the transportation committee, and it is definitely settled that the train will consist of one baggage car, seven regulation Pullmans, one compartment car and two diners. This comprises the full equipment that can be carried in one train and no additional train will be added, so it behooves all who plan to make the pilgrimage to make reservations, to get busy at once. There is one drawback, however, and that is a few lower berths. Last-comers will have to take what is left, and the very best of the train may have to stay at home. Certificates must be procured from Recorder before any transportation may be secured.

Members of Party. The patrol will carry 43 members, including the Ysaar temple, and band 10. Among those who have already made reservations are Potentate Heins, Noble Byron Souders, Representative Forrest Adair, George Donovon, Walter Goodhart, Chief Habban W. Gibson, Recorder George E. Argard and others.

The 43 members represent organizations, said to have been one of the biggest meetings of the imperial council ever held. Already it is known that over 80 will similarly represent at Des Moines this year, and the nobility of Zia-Za-Zig temple planning on making the trip the biggest in every year.

To Decorate Engine. The Nashville, Chattanooga and St. Louis railway will decorate a special engine to carry the train. The engine will be decorated with flags and will be parked on a siding near the Union station several days in advance of the trip. The engine will be decorated with flags and will be parked on a siding near the Union station several days in advance of the trip.

Reservations should be made by Byron Souders, care J. M. Woodall, 714 Heald street, Atlanta, Ga., or by the good returning up to June 23. The club-observation car is an extra car added to the train, and will provide a delightful service that the railroads will give.

Power of Public. Authority is being delegated without carrying with it responsibility. The public is being asked to take responsibility for the actions of the public, and the public is being asked to take responsibility for the actions of the public.

In equal measure, it automatically assumes responsibility for the actions of the public, and the public is being asked to take responsibility for the actions of the public.

In its dealings with the public, the company realizes that its service must achieve the highest standards of economy, efficiency, honesty and courtesy.

In return, it asks that the public, in assessing its qualifications for rendering its service, approach the task in a spirit of calmness and reasonableness. It is the last analysis, we both share a common aspiration—the ultimate growth and prosperity of the city of Atlanta and the state of Georgia.

OPPOSITION IS SEEN TO MOVE TO ANNEX KIRKWOOD TO CITY

Opposition to the movement launched Monday night at a meeting of Kirkwood citizens to annex that suburb to Atlanta was seen Wednesday at a statement issued by the city council, to the effect that a resolution had been adopted on May 24 declaring it to be the sense of that body that the present is an inappropriate time for considering the annexation movement looking to consolidation with Atlanta.

The committee which has been appointed to promote the movement for annexation is composed of Mr. Chapman, chairman, T. B. Woodall, L. J. Cassels, R. F. Gilliam, A. N. Couch and Joseph Janson.

A statement was read Wednesday night issued by W. B. Hardman, N. B. Williams, M. W. Guber and M. S. Johnson, urging the city council to reconsider the annexation movement, and urged that the citizens opposed to it, as well as favoring it, attend in order that their voice might be heard in the matter.

BUCHANAN WILL SPEAK AT J. O. U. A. M. MEETING

Ernest C. Buchanan, prominent lawyer and former chairman of the city executive committee, will address members of the Junior Order United Mechanics next Sunday at 3 o'clock at the order hall, 238½ Capital avenue. His subject will be "Personal Liberties." Members of the order from Fulton, DeKalb, Cobb, Campbell and Clayton counties will be present.

Another interesting address on this occasion will be that of Dr. Arva Boyajian, a native Armenian, who fought for many years in the army of his native country against the Turks. He also fought under the Star and Stripes during the world war.

Colored Church To Give Pastor Trip to Europe

"As a mark of appreciation for your long and faithful service, this committee, representing the congregation of the Friendship Baptist church, is pleased to tender its pastor, Rev. E. D. Carter, a trip to Europe, valued at \$1,000 for a trip to Europe," were the words of the chairman of a committee of this church in addressing Rev. E. D. Carter, colored, who since 1912 has occupied the same pulpit.

The occasion was the celebration of the church's ninth anniversary and as a result, the minister will leave Atlanta Monday morning for New York, where he will catch the Cunard liner Aquitania, sailing for Southampton June 14.

Previous to his departure, however, a ceremony will be held at the church when the pastor will be presented with his tickets and takes formal farewell of his congregation.

REDRAFTED PEACE BILL INTRODUCED

Washington, June 1.—The Porter peace resolution, for terminating the state of war between the United States and Germany and Austria-Hungary, as approved by republicans, was introduced late today in the house.

Unlike the Knox peace resolution, recently passed by the senate, the measure makes no provision for re-terminating the declaration of war. It will be considered and probably reported out Friday by the committee.

Chairman Porter was split into two parts because of the different dates on which war was declared against Germany and Austria-Hungary. The language with respect to "rights of nationals" is the same in each instance.

The resolution after setting forth that the state of war "is hereby at an end," provides:

"That in making this declaration and as a part of it, there are expressly reserved to the United States and its nationals, and to all and all rights, privileges, immunities, reparations, or advantages, together with the right to enforce the same, to which it or they have become entitled under the terms of the armistice of November 11, 1918, or any extensions or modifications thereof, or which were secured by or are in the possession of the United States of America by reason of its participation in the war or to which it or they have become entitled under the terms of the armistice of November 11, 1918, or any extensions or modifications thereof, or which were secured by or are in the possession of the United States of America by reason of its participation in the war or to which it or they have become entitled under the terms of the armistice of November 11, 1918, or any extensions or modifications thereof, or which were secured by or are in the possession of the United States of America by reason of its participation in the war or to which it or they have become entitled under the terms of the armistice of November 11, 1918, or any extensions or modifications thereof, or which were secured by or are in the possession of the United States of America by reason of its participation in the war or to which it or they have become entitled under the terms of the armistice of November 11, 1918, or any extensions or modifications thereof, or which were secured by or are in the possession of the United States of America by reason of its participation in the war or to which it or they have become entitled under the terms of the armistice of November 11, 1918, or any extensions or modifications thereof, or which were secured by or are in the possession of the United States of America by reason of its participation in the war or to which it or they have become entitled under the terms of the armistice of November 11, 1918, or any extensions or modifications thereof, or which were secured by or are in the possession of the United States of America by reason of its participation in the war or to which it or they have become entitled under the terms of the armistice of November 11, 1918, or any extensions or modifications thereof, or which were secured by or are in the possession of the United States of America by reason of its participation in the war or to which it or they have become entitled under the terms of the armistice of November 11, 1918, or any extensions or modifications thereof, or which were secured by or are in the possession of the United States of America by reason of its participation in the war or to which it or they have become entitled under the terms of the armistice of November 11, 1918, or any extensions or modifications thereof, or which were secured by or are in the possession of the United States of America by reason of its participation in the war or to which it or they have become entitled under the terms of the armistice of November 11, 1918, or any extensions or modifications thereof, or which were secured by or are in the possession of the United States of America by reason of its participation in the war Dempey today cherishes letters he has received from children whose homes are scattered all over the country wishing him success in his championship match with Georges Carpentier in Jersey City, July 2.

Dempey will celebrate his 26th birthday on June 23, and may have a birthday party with twenty-six children as his guests.

The champion today enters upon the second day of his four day lay off.

"Better Shoes for Less Money"

Member Federal Reserve System

Federal Reserve Bulletin To Show Improvement

BY JAMES A. HOLLOWAY.

Constitution Bureau.

Raleigh Hotel.

Washington, June 1.—(By Consti-

tution Leased Wire).—The monthly

bulletin of the Federal Reserve

board, which will appear tomorrow,

will declare unequivocally that the

month of May developed increasing

financial strength and a more pro-

sperous business outlook throughout

the country.

It will show that what appears to

be a definite turn for the better

has been taken by some branches

of domestic industry, but that for-

eign trade is still depressed. The

more hopeful attitude which showed

itself among business men during

April has continued; and in some

industries is preparing the way for

active development. Gains made

during the preceding month or two

have been generally retained, re-

action being only sporadic.

Foreign trade continues its move-

ment toward a more nearly equal

balance of imports and exports.

There has been a further falling off

in foreign shipments and some in-

crease in receipts from abroad; the

figures being especially noteworthy

when stated as physical volumes

of goods. Failure to recover normal

industrial conditions in foreign

countries and special causes of trade

impairment, such as the British coal

strike, have hampered progress;

while disturbed exchange and in-

adequate financial facilities have

made assumption of activity a mat-

ter of special difficulty in some

directions.

Readjustment in wages.

Readjustment in wages has pro-

ceeded but has been slow; while

adjustment between wages and

prices, especially retail prices, is

exhibiting special difficulties. Ir-

regularity and lack of uniformity

still exists in marked degree over

large sections of the retail price

field and qualified observers fore-

cast serious obstacles to the final

adjustment of wages to permanent

levels, unless retail prices move

much faster to their final basis.

Settling of prices has proceeded in

various wholesale lines to an extent

that is reflected in less noteworthy

average changes; but this process

is apparently more truly an "evening

up" or adjustment to a level already

reached than it is a new dip or

downward movement toward gen-

erally lower values. Basic com-

modities have shown ability to hold

their own at levels already estab-

lished. High costs of transporta-

tion continue to produce a restric-

tive influence and are the subject

of active investigation and dis-

cussion.

The uneven character of the busi-

ness readjustment of the month is

illustrated by conditions in the

various individual industries. In some

of the latter an approach to stabil-

ization has been made. This condi-

tion notably exists in the textile

industry. Contrasted with industries

of this type are several that are

either at low level or moving for-

ward in those which are still declining.

Buyers are confined largely to immediate

needs and as a consequence both

unfilled orders and current produc-

tion show declines.

Buyers Retarded.

It will further show that so long

as prices are still in an unstable

condition, buying for future deliv-

ery is necessarily retarded in many

lines. This holds good of industries

where recovery is in progress and

in those which are still declining.

In some branches of textile produc-

tion, for example, manufacturers

report that while the volume of

current trade is good, advanced or-

ders continue small, most buyers de-

clining to commit themselves far

in advance.

Voluntary unemployment has been

considerably augmented during the

month as the result of the increase

in labor difficulties which has ac-

companied wage readjustment.

Agricultural developments of the

south are of a somewhat uncertain

character. Whereas climate and soil

conditions had previously been

favorable, the wet cold weather of

May interfered with crop develop-

ment and as a matter of fact great

damage has been done in certain

sections of the country. The fruit

crop over wide areas has suffered

severely.

There has been, in various sec-

tions, an easing of the demand for

funds which resulted in part from

the acceptance of lower price levels

and in part from the adjustment of

business to new conditions.

Cotton Crop Retarded.

The bulletin will show that the

development of the cotton crop

throughout the southern area has

been retarded by unfavorable

weather conditions. Thus, in dis-

trict 11 (Dallas), "the effect of the

cold wave during April and May

was to check the growth of cot-

ton, where the plant had germinated

and to retard its germination else-

where. In west Texas plowing and

planting have been delayed by

drought, while in many sections the

cold, wet ground has played an

important part in delaying the

necessary replanting." District

number eight (St. Louis) reports

that "planting, cultivation and

precipitation." Information received

from all districts indicate that the

acreage planted in cotton has

been considerably reduced. The re-

sult of a recent survey in 150 coun-

ties of Texas made by the federal

reserve bank of Dallas show that

the reduction in that area is about

30 per cent. District number eight

reports that "The Arkansas

Cotton Trade Association esti-

mates that the acreage reductions

in that state will amount to 35.3

per cent.

WEATHER CONDITIONS LOWERS COTTON

Washington, June 1.—Warm, sun-

shiny weather which prevailed

throughout most of the cotton belt

enabled the crop to make satis-

factory progress during the week,

although in some localities it was

reported in poor to only fair con-

dition, the national weather and

crop report today showed.

The crop showed greater improvement

in the southeast, notably in Georgia,

where late replanted cotton has

germinated very well, and in North

Carolina, where the plants have

shown up in better color and stand,

after much replanting.

In the northwestern portion of

the belt, the report said, planting

is about finished and germination

satisfactory, while good advance

was reported from the central sec-

tions. Considerable weevil activi-

ty was reported in Alabama, Georgia

and South Carolina.

Dividend Passed.

New York, June 1.—The South Rio

Sugar company today passed its quarterly

dividend of 1 1/2 per cent on common stock,

but declared the usual 2 per cent dividend

on preferred.

The low price of sugar and the

unsatisfactory condition of the market

acted as reasons for the omission.

PROBE ORDERED IN BOMB BLAST

Washington, June 1.—(By Asso-

ciated Press).—A complete investi-

gation of the circumstances sur-

rounding the bomb explosion yes-

terday at the Aberdeen, Md., prov-

ing grounds which resulted in the

death of five persons and injury to

ten others, was directed by Secre-

tary Weeks today in orders to In-

spector General Chamberlain.

The investigation will begin im-

mediately, as will one to be con-

ducted personally by J. Mayhew

Wainwright, assistant secretary of

war. Mr. Wainwright left here late

today for Aberdeen to collect evi-

dence. Previously General Will-

iams, chief of ordnance, had dis-

patched Major William A. Borden,

and Captain C. H. M. Roberts, to

the scene to make an investigation

and the commanding officers at

Aberdeen had appointed a "local

board" for the same purpose.

Major Borden brought the first

details of the disaster to the de-

partment today in an oral report

to General Williams. While he re-

sponded officially to fix the re-

sponsibility in view of the separate

investigations ordered for that pur-

pose, he advanced a theory of the

cause of the explosion. The facts

upon which he based his conclusions

are regarded by ordnance experts

as exceptional.

He held four bombs.

"The plane had been loaded with

four bombs," Major Borden said.

"That on rack No. 1, at the right

hand end of the plane, had dropped

from the rack once. An examina-

tion of the bomb showed it to be

either of rack or bomb and the

bomb was replaced. Then it was

dropped a second time.

"Meanwhile the motor had been

started and the airplane was being

turned around. The blast from the

propeller of the machine started the

propeller on the bomb releasing a

certain number of revolutions of

the bomb's propeller releases a

striking pin or plunger. The pro-

peller had apparently turned that

pin when the tail skid—a piece of

metal attached to the tail of the

airplane—wung around and struck

the propeller of the bomb, a most

extraordinary occurrence.

"The blow evidently was all that

was required to drive the plunger

into the percussion cap, causing the

explosion," he said.

The propeller had an-

grily turned to a point where the

blow would have released the

plunger. The explosion followed."

Safety Stopped Others.

Safety devices on the other three

bombs prevented their discharge,

in the opinion of Major Borden, al-

though they were within fifteen feet

of the explosion.

Amusement Directory THEATERS MOVIES

Lyric Theater (with vaudeville)—See ad-

vertisement for program.

Loew's Grand Theater (vaudeville and

pictures)—See advertisement for program.

Howard Theater—Thursday, Friday and

Saturday, Patsy Arbuckle in "The Travel-

ing Salesman."

Keith Vaudeville
(At the Lyric.)

Keith's Lyric offers a treat to

theater lovers Thursday, Friday and

Saturday in presenting Clara How-

ard as the headliner for the last

half of this week. Miss Howard

has that rare personality which im-

mediately wins her audience and

keeps them there at her clever

songs and stories. She has ap-

peared in Atlanta a number of times be-

fore and her return is always mark-

ed with a great deal of interest.

Cross and Santora, equilibrists, are

a departure from the usual run of

acts of this kind and Graves and

DeMondie afford the comedy atmos-

phere in a sketch entitled "I Gotta

Have Meat."

Loew Vaudeville.

(At the Grand.)

An all-star bill—five sparkling

acts and an exceptionally fine pic-

ture—program—appears at Loew's

Grand theater for three days begin-

ning Thursday. Each act is so un-

usually good that it would be a bit

unfair to designate a headline.

Other acts include Joe and Bertha

player and Frank Shepherd, a run-

of-the-trickster of rare ability in a

turn he calls "Bunkology."

"The Traveling Salesman."

(At the Howard.)

Roscoe (Fatty) Arbuckle appears

in a picture that should have been

made to fit him.

That the Paramount production of

"The Traveling Salesman" is a

picture that should have been made

to fit him.

That the Paramount production of

"The Traveling Salesman" is a

picture that should have been made

to fit him.

"A Small Town Idol."

(At the Criterion.)

Mack Sennett's feature-comedy,

"A Small Town Idol" is proving a

genuine thriller at the Criterion.

In the early scenes Turpin is hero

of a small town, and as a joke he

is made to become a big star.

His mount to victory is a picture

of his country home.

Mary M. Minter.

(At the Lyric.)

Mary M. Minter, a three-time Real-

art star, opens a three-day engage-

ment at the Lyric today. The

picture was made by Edith Ken-

edy from the famous stage success

"Jerry," in which Billie Burke scored

such a triumph. Miss Minter is

perfect choice for the hysterical

mis of eighteen whose juggling

of three romances causes her to

lose her mind. The story is

supported by an excellent cast

including Ruth Stonehouse and Ed-

ward Flanagan.

"What Every Woman Knows"

(At the Lyric.)

One of the features of the

year, Sir James M. Barrie's

"What Every Woman Knows," at

the Lyric today. In this picture

Maude Adams made one of her

most outstanding successes. Lois Wil-

son, the capable leading woman, en-

acts Miss Adams' role and Conrad

Nagel, formerly stage star, is the

leading man.

Macon Telegraph

Defendant in Suit

By Mayor Toole

Macon, Ga., June 1.—(Special.)

Alleging that the Macon Telegraph

imposed and caused to be pub-

lished a false, scandalous, malicious

and defamatory libel, Mayor Glen

Toole today filed suit against

that paper in the U. S. superior

court for \$50,000 damages.

The action is based on a news

story carried in the Telegraph

Tuesday to the effect that the Mayor

was in an automobile accident on

College street Monday night in

which the car he was riding struck

another car and knocked the wheel

off and that the accident happened

while the cars were racing.

The petition alleges that the pub-

lication was false, malicious and

per se charged him with violating

the criminal laws of the state. The

suit was filed through City Attor-

ney Walter DeFore, City Recorder

E. W. Maynard and former Con-

gressman C. L. Barlett, all politi-

cal supporters of the mayor.

Officials of the Telegraph stated

that they had no trouble

in disproving the mayor's charges;

that the story was based upon in-

formation given by a policeman in

an official report to the chief of

police. It is also denied by the

paper that the story was printed

in malice and with knowledge of

its falsity.

INDICTMENTS AGAINST

LASSITER DROPPED

Americus, Ga., June 1.—(Special.)

Two indictments charging J. W.

Lassiter, former Sumter county road

overseer, with being drunk in the

vicinity of a residence and using

profane language were dismissed by

Solicitor Felton when his case was

called in Sumter superior court this

COTTON MILL MEN STRIKE; 10,000 OUT

Thirty-five Factories Are Shut Down When Employees Quit in Protest on Wage Cuts.

Charlotte, N. C., June 1.—Approximately 10,000 cotton mill employees went out on strike at 10 o'clock today as a protest against recent reductions in wages, which are said to aggregate a cut of 35 per cent over the peak wages. About 35 mills are closed as a result of the strike.

Vice President McMahon, of the organization, announced some weeks ago that the time and place had been agreed upon, but there was no intimation of either.

Three thousand cotton mill employees here walked out. Vice President McMahon declared he was entirely unaware of the movement as it had been left wholly in the hands of local unions.

6,000 QUIT WORK IN CONCORD AREA.
Concord, N. C., June 1.—All union operatives in the 20 mills here and at Kannapolis struck this morning at 10 o'clock. It is estimated that 6,000 men quit work.

BILL TO MONETIZE U. S. BONDS READ

BY JAMES A. HOLLOWAY, Constitution Bureau, Raleigh Hotel.

Washington, June 1.—(By Constitution Leased Wire.)—Senator Thomas E. Watson's measure to monetize Liberty and Victory bonds, etc., advance information concerning which was published exclusively in The Constitution early in January, has just been introduced into the senate. It is brief and to the point.

The full text of the amendment to the act of 1917 authorizing the issuing of war bonds, providing that the same shall now become legal tender at par value for the payment of all private and public debts follows:

"Be it enacted by the senate and house of representatives of the United States of America in congress assembled, that

The act to authorize an issue of bonds to meet expenditures for the national security and defense, and for the purpose of assisting in the prosecution of the war, to extend credit to foreign governments, and for other purposes, approved April 24, 1917, be amended so that in section 1, paragraph 1, the words 'and in line 19 thereof, strike out the semi-colon after the word 'and' and insert a period, and strike out in said line the words 'but such bonds shall not bear the circulation privilege'.

"In paragraph VI and in lines XII and XIII, strike out the words 'certificates of indebtedness herein authorized shall not bear the circulation privilege, and' Also strike out the letter 't' after the word 'and' in line XIII and insert a capital 'T' in lieu thereof.

"Paragraph 2. The bonds issued by authority of the aforesaid law shall become legal tender for face value in payment of all debts, public and private, except duties on imports and interest on the public debt."

ATLANTA MAN SCORES UNION INTERFERENCE

Atlantic City, N. J., June 1.—Addressing the annual convention of the Biscuit and Cracker Manufacturers' Association of America here, the President, Brooks Morgan, of Atlanta, Ga., scored labor unions for alleged interference with industry. He also made a plea for a "new deal" for the railroads and products.

"It is un-American for labor unions to say who shall or who shall not work," declared Mr. Morgan. "When I meet former soldiers who say they cannot get a job because the unions do not allow them to learn a trade, it makes my blood boil."

KRYPTOK
WHAT ARE KRYPTOK BIFOCALS?
They are a combination of glass, allowing you to see both near and far with one solid glass. No removing your reading glass to see distant objects; no seams, lines or blisters to worry you or attract attention of others to your age. Absolutely invisible while on the face, they have proven a revelation to thousands who have come to us for them. Why are we successful with Kryptoks? Because we are extremely careful in the examination of your eyes, the correct grinding of the glass, and perfect adjustment of frames to each individual face, all of which is absolutely necessary to insure comfort and appearance. If you have Kryptoks bought elsewhere and cannot use them, bring them to us and we will find the trouble. Ask the better oculists or any of our patients what the Ballard service is to the public.
